Quarterly Overview of the Operating and Research Funds for the Three Months Ended September 30, 2018

On June 28, 2018, the Board of Trustees approved a budget which included \$1,367.5 million of revenue to cover \$1,367.5 million in expenses.

The financial results for the first quarter are compared to the approved budget. During the first three months of Fiscal Year 2019, actual revenue totaled \$484.7 million and actual expenditures totaled \$299.8 million resulting in a \$184.9 million net gain for the quarter. The large gains at this point in the year are due to the tuition and room and board fees collected at the beginning of the semester, yet expended throughout the remainder of the semester and fiscal year.

A more detailed review of the activity through the end of the first quarter is presented below.

Poverues	
Revenues	

## **Operating Fund**

Total **Operating Fund** revenue collections through the first quarter of Fiscal Year 2019 were \$455.8 million which represented 36.3% of the annual budget. Revenues at this point last year represented 36.9% of the annual budget. A major source of revenue, **State Support**, was \$49.0 million and represented 10.8% of the total operating fund received for the first three months.

**Tuition** collections were the largest source of revenue, totaling \$211.6 million, which represented 46.4% of total operating fund receipts. Tuition revenue collections reflected an \$850 rate increase coupled with a small increase in the number of undergraduate students. This category will end the year ahead of budget due to a higher number of out-of-state students than originally budgeted.

**Fee** revenue is comprised of course fees from summer school, part-time, and non-degree students as well as self-supporting programs (off-campus MBA, EMBA, etc.). Also included in this category is the General University Fee, which primarily supports four Auxiliary Enterprise programs. Various other fees such as the Infrastructure Maintenance Fee, Application Fees and Late Payment Fees are included here as well. The three months of fee collections totaled \$56.1 million or 41.3% of the amount budgeted.

**Auxiliary Enterprise Revenue** through the first quarter of Fiscal Year 2019 was \$93.8 million which represented 43.8% of the annual budgeted amount. The largest portion of Auxiliary Enterprise revenue consists of Room and Board Fees, which totaled \$74.0 million through the first three months.

# **University of Connecticut (Storrs & Regional Campuses)**

**Grants and Contracts** revenue consists of non-research restricted revenues from a granting agency (e.g. Pell Grants). For the first three months of Fiscal Year 2019, Grants and Contracts revenue was \$35.6 million or 43.7% of the amount budgeted.

**Foundation/Endowment** revenue consists of gift funds transferred from the UConn Foundation and investment income on endowments. Through the first quarter of Fiscal Year 2019, the total received was \$0.9 million or 4.1% of the amount budgeted. The low total is not reflective of year end results as the timing of the deposits varies and usually occurs in the second half of the year. This category is expected to end the year on budget.

**Sales and Services of Educational Activities and Other Sources** revenue totaled \$8.8 million or 24.5% of budget for the first quarter. This category includes revenues from the sales of goods or services that are incidental to the conduct of instruction, research, or public service.

## **Research Fund**

With respect to the **Research Fund**, the granting agency or donor restricts most of the revenues. For the first three months, Research Fund revenues were \$28.9 million and represented 25.6% of the amount budgeted.

**Expenditures** 

## **Operating Fund**

Total **Operating Fund** expenditures for the first quarter of Fiscal Year 2019 were \$274.0 million or 21.8% of the annual budgeted amount. Operating expenditures at this point last year were 22.2% of the annual budget.

**Personal Services/Fringe Benefit** expenditures totaled \$123.4 million and represented 15.8% of the budgeted amount of \$781.0 million. These categories represent 45.0% of the total Operating Fund expenditures. The University continues to closely watch spending in these categories considering the current fiscal environment.

**Other Expenses** (including energy costs) were \$55.3 million for the first three months. This represents 23.4% of the amount budgeted. The biggest components of this category are utilities, food service, lab supplies, and janitorial costs.

**Equipment** expenditures of \$5.9 million were 28.4% of the amount budgeted.

# **University of Connecticut (Storrs & Regional Campuses)**

**Student Aid** expenditures were \$88.7 million and represented 48.2% of the amount budgeted. Despite overall State cuts, UConn is committed to providing financial aid to students based on both need and merit.

**Net Debt/Other Transfers** for the first three months were \$0.7 million or 2.1% of the amount budgeted.

## **Research Fund**

Finally, **Research Fund** expenditures totaled \$25.9 million and represented 23.1% of the budgeted amount. Due to the variability of research expenditures, quarterly comparisons are not necessarily indicative of annual results.

Summary

# **Enrollment**

Total undergraduate enrollment at UConn is 23,978 while another 7,668 were enrolled in graduate or professional programs (excluding UConn Health). Total University enrollment for fall 2018 (excluding UConn Health) was up .2% from fall 2017.

## **Overview**

So far through the first quarter, both revenues and expenditures are coming in as expected. As previously stated, the large net gains through the first three months are not representative of expected year end results. Tuition, room and board fees are collected at the beginning of the semester, and are then expended throughout the remainder of the semester and fiscal year. The University expects to end Fiscal Year 2019 on budget.
