This document is intended to provide a glimpse of the University of Connecticut. Most information included in this document is from Fiscal Year 2022, the most recent year for which complete information is available. As available, Fiscal Year 2023 is used for enrollment, faculty, staff and student data and other data. For a more comprehensive look at the University of Connecticut, visit uconn.edu/about-us/ or health.uconn.edu.
I am honored and humbled to serve as President of the University of Connecticut and UConn Health. UConn strives to be a place where all students, regardless of their zip codes and countries they were born and raised in, will have equal opportunities and be fully prepared for their life journey upon graduation.

Each year UConn is hitting new highs in academic excellence, creativity, research, global engagement, partnerships, and entrepreneurial activities. With the support of our state government, communities, and industry, we will continue to keep our students at the center of who we are and prepare them not just for good jobs, but also for leadership roles in addressing societal challenges.

We strive to teach our students the skill sets of creativity, innovation, and entrepreneurship as they explore the opportunities and decide their paths for their futures. I will work hard alongside our excellent and committed faculty, staff, alumni, public servants, and donors to positively impact our students, the university community, and the State of Connecticut.

Thank you for your support of our university.

Dr. Radenka Maric
President
UConn impacts CT in many ways.
- Education across all subjects and levels, workforce development, clinical services, basic and applied research, and economic development.

UConn is a strong steward of CT resources.

As the #26 public university in the nation, UConn punches well above its weight.
- We graduate more students at a cheaper cost per graduate.
- Our time-to-degree is the best in the nation, reducing the costs to students, their families, and the state.
- Our high-quality students win national and international competitions.
- The ROI for a UConn degree compares to the top universities in the nation.
FY24 – FY25 Biennium Requests

- Maintain block grant funding
- Fund collective bargaining increases for all employees
- Provide legacy cost relief
- Fund capital projects

Higher than the national average for all first-year and minority first-year students.
UConn Early College Experience (UConn ECE) is a concurrent enrollment program that allows motivated high school students to take UConn courses at their high schools for both high school and college credit. Every course taken through UConn ECE is equivalent to the same course at the University of Connecticut. Students benefit by taking college courses in a setting that is both familiar and conducive to learning.

We ensure that:

• UConn courses offered in the high school are as rigorous as courses offered on campus

• Students are held to the same expectation and standards of achievement as on-campus students

• Instructors meet the same requirements for on-campus adjunct faculty and are provided support by faculty in their discipline

UConn Health - One of Connecticut’s Successes

Economic Driver for the Region and the State
- Catalyst for new biomedical and biotech jobs, e.g. Stem cell, genomics and personalized medicine
- Generates $3.1 Billion in overall economic impact to the State
- State-of-the-art incubator space for small startup businesses
- Robust clinical enterprise

Major Employer in the State
- Over 5,400 employees from 146 different Connecticut towns

Critical Source of the State’s Health Care Professionals – Educating the Next Generation
- UConn School of Medicine is the largest medical school in the state
- UConn School of Dental Medicine is the only dental school in the state
- 35% of UConn School of Medicine (SOM) graduates practice in the State, the largest single provider of medical professionals in the state
- 35% of SOM graduates stay in CT for residency and fellowship receiving training while providing service; thus over 70% of SOM graduates give back in service for the 4 years of medical education they receive
- 31% of SOM-sponsored residents and fellows including non-SOM graduates stay and serve CT
- 62% of UConn School of Dental Medicine (SODM) graduates practice in the State, the largest single provider of dental professionals in the state; 60% of SODM residency graduates, including non-SODM graduates, practice in the State
- 80% of the SOM and 56% of the SODM first year students this year are Connecticut residents
- 32% of the SOM and 23% of the SODM’s 2020/21 first-year class are under-represented/minority students
- UConn School of Medicine recently ranked 23 in Diversity among all US medical school (out of 73) by US News and World Report for its Health Career Opportunity Program and diversity of its student body with African American students comprising 11.3%, well above the national average of 6.7%.
- SODM has been recognized by the American Dental Education Association for achievements in the recruitment and matriculation of URM students (October 2020)
UConn Health: Key Service Statistics (FY22)

9,801 INPATIENT DISCHARGES

3,848 OBSERVATIONS

1,377,445 OUTPATIENT VISITS*

77,185 DENTAL CLINIC VISITS AT UCONN HEALTH SITES*

*Some outpatient visits will generate multiple patient services in a given day.
Clinical Services

All UConn Health clinical care venues serve as sites for teaching and learning and are essential for attracting talented faculty who teach, do research, and provide patient care.

John Dempsey Hospital (JDH): Acute care, University teaching hospital licensed for 234 beds.

UConn Medical Group (UMG): Among the largest multi-specialty faculty clinical group practices in the region.

University Dentists and UConn Dental Clinics: Faculty and resident dental care practices.

Urgent Care: Treating a range of non-life-threatening illnesses and injuries that need prompt attention with no appointment.

10 Locations

- John Dempsey Hospital (JDH): Acute care, University teaching hospital licensed for 234 beds.
- UConn Medical Group (UMG): Among the largest multi-specialty faculty clinical group practices in the region.
- University Dentists and UConn Dental Clinics: Faculty and resident dental care practices.
- Urgent Care: Treating a range of non-life-threatening illnesses and injuries that need prompt attention with no appointment.
UConn Health: A Resource for the Community and the State

- **UConn Health Center on Aging** - Dr. Patrick Coll, Medical Director for Senior Health at UConn Health, serves as a member of the State’s Nursing Home & Assisted Living Oversight Working Group (NHALOWG) which was convened by the Governor and the state legislature.

- **Establishment of 340B Prescription Drug Price Control Program** that allows qualifying providers, serving uninsured and low-income patients, to purchase outpatient drugs at discounted prices.

- **Partnership with Boys & Girls Club** - provide health education, healthcare screening, vaccinations and mentorship programs to youth in the Greater Hartford area. [https://health.uconn.edu/hcop/](https://health.uconn.edu/hcop/)

- **SNAP4CT** – program providing health and nutrition information for CT residents who receive SNAP

- **Screening for Social Determinants of Health (SDOH)** - UConn Health is committed to improving health outcomes for our patients which includes addressing social-economic, environmental and behavioral factors that contribute to patients’ overall health.

- **Medicaid Obstetrics Quality Outcomes** - program aimed at improving maternal and fetal health outcomes. One notable achievement was an increase in our post-partum visit rate within 21 days of delivery from 32% to 70%. Our FY21 performance was ranked top five within the state of CT.

- **UConn Health Infectious Disease** - Ryan White HIV/AIDS Program Provider - Provide a comprehensive system of HIV primary medical care, essential support services, and medications for low-income people living with HIV.
UConn Health: A Resource for the Community and the State

Heath Career Opportunity Programs - Aetna Health Professions Partnership Initiative

https://health.uconn.edu/hcop/

Comprehensive program of educational enrichment and support activities for underrepresented and first-generation students applying to medical and dental schools, graduate programs in biomedical sciences, nursing, pharmacy, and allied health programs

- Stem Education for Urban Middle School Students – Great Explorations Middle School Program
- Doctors Academy College Prep Program for URBAN High School Students
- Statewide High School Student Research Apprentice Program
- Statewide Mini Medical/Dental High School Program
- Statewide Bridge To The Future Science Mentorship Program - Middle School, High School and College Students
- Statewide Pre-College Enrichment Programs for entering freshmen
- Statewide Health Disparities Summer Research Fellowship Program
- Statewide Medical and Dental School MCAT/DAT Preparatory Program
- Statewide Summer Research Fellowship Program
- Health careers enrichment sessions with LMSA, SNMA, SNDA/HSDA for partnering Hartford Schools and the Boys & Girls Clubs of Hartford
UConn Health: A Resource for the Community and the State

COVID-19 Pandemic – Partnerships and Outreach to Vulnerable Communities

• Partnered with State of CT DPH for PSAs regarding safety of COVID-19 vaccine for pregnant women
• Developed PSAs on vaccine hesitancy in English and Spanish – aired on NBC30/Telemundo
• Latino Medical Student Association- developed education on vaccine efficacy and dispelling myths
• Public School COVID-19 Vaccine Clinics- May 2021/ June 2021 (Hartford, Coventry and Tolland)- Total number of public students vaccinated = 425
• Nurse Researchers Study How to Increase COVID-19 Testing, Vaccination Among Underserved Hispanic Families https://today.uconn.edu/2021/02/nurse-researchers-covid-testing-hispanic-families
• Provide 12 hours focused training COVID-19 prevention and care to health professions students
UConn Health: A Resource for the Community and the State

COVID-19 Pandemic – Partnerships and Outreach to Vulnerable Communities

• Door to Door vaccination (Hartford) - https://today.uconn.edu/2022/08/knock-knock-uconn-students-making-hartford-house-calls-with-covid-vaccines/
  In collaboration with faculty, students and residents from the Schools of Medicine, Nursing & Pharmacy joined the City of Hartford team to go door-to-door in zones identified as having the lowest vaccination rates

• Dunkin Donuts Park Vaccination Events (Hartford) – Students assisted the city of Hartford at these mass-vaccination events

• Community Health Center Vaccination Events (Hartford) – Students assisted with vaccination clinics

• Coordinated “Friendly Visitor” calls by health professions students to older adults in Torrington

• Distributed “COVID Care Bags” with CDC education and recommendations, masks, hand sanitizer, thermometers, and at-home fitness “toolkits” to vulnerable seniors in Hartford

  In September 2022, effort recognized by the White House’s Office of Science and Technology Policy.
Community Service Focused

Initiatives to prepare the next generation of health care providers, grow the number of under-represented minorities enrolled in healthcare education, and increase the number of healthcare professionals practicing in urban settings and other areas across the state.

UConn physicians, dentists, residents, medical and dental students provide thousands of hours of free healthcare to Connecticut’s most medically vulnerable citizens, for example:

- South Park Inn Medical/Dental Clinic (Hartford)
- Camp Courant Dental Screening Program
- CT Mission of Mercy
- Special Olympics Healthy Athletes/Special Smiles
- SHA/SHIP – Students/faculty assisted CT DPH with community input survey;
- UConn Storrs assisted DPH with section on climate change and health in CT
- Hartford North End Health & Wellness Screening Events-UConn Schools of Medicine and Dental Medicine working with the City of Hartford, DHHS and local community organizations provide health education & screening events focused on Oral Cancer, Diabetes & Hypertension at Keney Park in Hartford.
CT Area Health Education Center (AHEC) Network: Community Service and Workforce Development

- Covenant Soup Kitchen Clinic (Willimantic)
- New London Homeless Hospitality Center Clinic
- St. Vincent DePaul Place Clinic (Norwich)
- Farm Worker and Urban Communities Health & Wellness Program
- CT AHEC Network Pipeline Programs: Youth Health Service Corps, Collegiate Health Service Corps, AmeriCorps & STEM programs for high school students including sponsorship of the annual CT Junior Science & Humanities Symposium at UConn Health in Farmington
- CT AHEC Urban Service Track/AHEC Scholars Program - provides 70+ community-based programs annually (throughout CT), including Smalley Academy collaboration and Pathways/Senderos Teen Pregnancy Prevention Program (New Britain)
- Naloxone (Narcan) training
- CPR/First Aid training
- Just Five (Shatterproof) program focusing on increasing awareness, reducing stigma, and sharing information about addiction prevention and treatment
- Certified Nursing Assistant, Community Health Worker, and Medical Interpreter training programs
- Support to CT DPH and DOL and local health departments on public health issues
- Support for COVID-19 vaccination and education
- Health promotion education in K-12 (oral health, nutrition, tobacco and other substance use, and more)
- Trained 3,500 pre-professional and health professions students
- Community education on topics of health promotion and disease prevention, immunization/vaccination, trauma, ACEs, oral health, mental health, and more.

AHEC - Is based at UConn Health in Farmington, with four regional centers - Hartford, Norwich, Shelton and Waterbury
UConn Health: An Essential Healthcare Provider for Connecticut’s Underserved Citizens

UConn John Dempsey Hospital
Medicaid inpatient days as a percentage of total inpatient days = **23.6%**

UConn Dental Clinics
Single largest provider of dental services to Medicaid recipients and the under- and uninsured **56.0%** of patient visits to the UConn Health Dental Clinics are Medicaid clients (locations in Farmington, West Hartford and Storrs)

Service to Medicaid Patients FY22

UConn Medical Group
**23.7%** of visits were Medicaid patients

Leading provider of specialty services for Medicaid patients
Significant growth in outpatient visits - nearly doubling since 2013

Impact of COVID-19
UCH Net Patient Revenue
(in millions)

JDH, UMG, DENTAL CLINICS AND SPECIALTY PHARMACY

Unprecedented growth in clinical revenues - more than doubling since 2010.
UConn Collaborations with the Jackson Laboratory

COVID-19 Testing
- Partnered to provide coronavirus testing to Connecticut residents
- Pursuing research collaborations related to COVID-19

Joint Hires
- 4 joint UConn-Jax hires, and a 5th co-hire is in process

UConn Center on Aging Partners with JAX on NIH Awards
- Awarded $7 million grant to establish the Claude D. Pepper Older Americans Independence Center at UConn Health
- UConn Health and JAX assume key roles in the $13.5 million U54 SenNet Tissue Mapping Grant with top medical centers

Joint Single Cell Genomics Center
- Continued investment in equipment-based research core with cutting edge, state-of-the-art research equipment
- Grants awarded to UConn/UConn Health faculty using the Center total nearly $33M

Mighty Mice in Space
- Genetically engineered “mighty mice” sent to the International Space Station led by Drs. Se-Jin Lee (UCH-JAX joint hire) and Emily Germain-Lee (UCH-CCMC)

UCONN/JAX COLLABORATIVE GRANTS FY14-PRESENT

Who We Are

UConn is an outstanding global university that daily demonstrates a commitment to excellence in research, education, innovation and entrepreneurship, industry partnerships, clinical care, and community engagement in an environment that prioritizes public service and opportunity and accessibility for all.

Commitment to Connecticut

UConn generates economic impacts that ripple throughout Connecticut, affecting business and industry, households, and the rich variety of people who contribute to the state’s prosperity. In every corner of the state UConn’s impact can be felt in numerous ways. From the number of students attending the University, to the dedicated faculty and staff working to make UConn what it is today, our University touches all 169 towns in Connecticut.
Impact on Connecticut Economy

- **94¢**: Economic output generated for every dollar UConn spends
- **$320M**: State and Local Tax Revenue
- **$1,900**: Generated for Every CT Resident
- **31,941**: UConn-supported Jobs

Note: Economic impacts include direct, indirect, and induced spending effect. FY 2022 data.

UConn contributes **$6.9 Billion** annually to the state’s economy

UConn Briefing 2022-2023

UConn Research: An Innovation Economy Pipeline

Goals for Research and Scholarship
- Become regional innovation powerhouse
- Increase UConn’s reputation and rankings as an R1 institution
- Substantially increase research awards
- Become a member of AAU

1. Strategic resource allocation
2. Strategic hiring and retention
3. Institutional support for interdisciplinary research and scholarship
4. Infrastructure improvements
5. Research-driven philanthropy, innovation, and entrepreneurship

Areas targeted to support institutional growth and transformative impact
UConn’s Research Enterprise

UConn generates new discoveries that move through translational stages toward commercialization, investment, new companies, and new jobs for Connecticut.

UConn fuels innovation, workforce development, and economic growth for Connecticut. UConn partners with 165 institutions worldwide and is one of only two U.S. members of the Universitas 21 network, the leading global network of research universities for the 21st century.

The Carnegie Foundation currently classifies the institution with only 106 other public institutions nationwide in the highest category of Doctoral Universities (Very High Research Activity). The quality of the University’s diverse graduate programs is enhanced by the presence of exceptional graduate students.

UConn has impressive facilities for research and scholarships including health care facilities, laboratories, incubators, and a technology park. Faculty are taking advantage of these stunning opportunities for research and development.
Research Awards and Expenditures (in millions)

23% Increase in Awards over five years

Research awards totaled more than $316.6M in FY22 with more than $1.4B in proposals submitted (UConn and UConn Health) and awards averaging $406.4K per investigator.

Budget Impacts Excellence

Threats to UConn’s budget will impact student success, affordability, and national reputation.

While UConn is currently ranked as No. 26 by U.S. News, reductions in state support would have negative impacts on UConn students and the state’s economy, including:

- Students paying more tuition and fees to offset declining state support
- Class sizes increasing while class offerings decrease, resulting in diminished educational quality and longer times to graduation
- Limited student services, such as fewer academic advisors and reduced mental health counseling and other support services
- More competition for and declining retention rates of best faculty, leading to fewer research grants and industry partnerships.
Budget Landscape

Over the last decade, the percent of support we receive in state funds relative to our overall budget has been consistent. However, the University has become increasingly reliant on grants and contracts, auxiliaries, tuition, and clinical revenues.

UConn
- In FY20-FY23, UConn received $162 million in federal COVID Relief funding to be used for Institutional support and $50.5 million for student aid.

UConn Health
- In FY20-FY23, UConn Health received $197.7 million in federal COVID Relief funding to be used for Institutional support.
FY23 Revenues

UConn Foundation

In the last four years, donors to the University made commitments and gifts totaling more than $300 million, with contributions of $115 million to support the University students, faculty, and programs during Fiscal Year 2022. The University continues its goal to grow the endowment to $1 billion.

The University of Connecticut Foundation, Inc., (the “Foundation”) is a separate entity that supports the mission of the University. The Foundation operates exclusively for charitable and educational purposes, raising funds to promote, encourage, and assist education and research at the University and UConn Health. The Foundation solicits and accepts donations of properties, monies, and securities and invests and administers these gifts. The Foundation materially supports the mission of both the University and UConn Health.

FY22 is the third consecutive record-breaking fundraising year, a 24% increase over last year’s record-setting amount.

Nearly **240** students and **15** faculty for every one administrator
Rising Fringe Costs

The State’s fringe benefit costs continue to rise. The SERS fringe rate has risen dramatically over the last 24 years primarily due to the State’s unfunded pension cost (aka legacy costs). These are costs UConn can no longer afford to cover for the state. UConn continues to request state funding to cover these costs like it does for all other state agencies.
The State Comptroller develops the fringe benefit rates and the University is charged those rates for each employee. The State covers these legacy costs for all other State agencies.

Below is an example showing the components of the fringe rate for an employee who is a member of the State Employees Retirement System (SERS)** with an annual salary of $100K.

**Other retirement options are available for non-classified employees (Alternate Retirement Plan (ARP) Rate at 14.60%). About 35% of our current employees are on the ARP and 65% are on the SERS State plan.
State Legacy Costs: Key Issues

Budget Impact
UConn and UConn Health must pay ~$105.5M to cover the state’s legacy costs in FY23. These are costs UConn can no longer afford to cover for the state.

Students and their Families
State legacy costs cause an undue burden on students and their families. We have to fund some of these costs with tuition and fee dollars, meaning that students are paying for a prior retiree liability. This translates into $1,050 per student.

Research Competitiveness
The state’s fringe rate causes UConn and UConn Health research fringe rates to be outliers, ~ 30% higher than peers, making UConn grant applications less competitive. This results in fewer research grant dollars and federal dollars to the state’s economy and less innovation and commercialization.

Clinical Competitiveness
The state’s fringe rate for UCH’s clinical operations is ~ 44% higher than other hospitals and providers across the state, resulting in over $82.3M in additional costs for UConn Health to provide clinical care.
UConn State Funds Flow and Legacy Costs

The total legacy cost to UConn is estimated at $165.2M and the State covers $120.5M which means UConn is required to provide the remaining $44.8M. The State provided one-time funding of $6.1M for this in FY23.

*Numbers represent FY23 budget and include ARPA funding. UConn received $6.1M in operating support to cover a portion of the FY23 $44.8M of legacy costs.
The total legacy cost to UConn Health is estimated at $133.3M and the State covers $72.6M which means UConn Health is required to provide the remaining $60.7M. The State provided one-time funding for this in FY23.

*Numbers represent FY23 budget and include ARPA funding. UConn Health received $60.7M in one-time operating support to cover all of the FY23 legacy costs.
Cost of Attendance

UConn provides an excellent education at affordable costs, with in-state rates that are much lower than other regional alternatives.

**Top 50**
Best Value Public College for return-on-investment (ROI) out of 209 schools ranked by the Princeton Review

**#41**
Out of 619 public colleges in NICHE Best Value Colleges in America ranking

*Does not include costs for books, supplies, transportation, etc.*
For Connecticut residents, UConn offers the best value compared to leaving the state to attend a peer university.

For Connecticut residents, UConn offers the best value compared to leaving the state to attend a peer university.

$19,434 - UConn In-State Rate

$42,102 - UConn Out-of-State Rate
Financial Aid

Our goal at UConn is to make education affordable to each student selected for admission. We understand enrolling in college is a considerable financial commitment. That’s why we are dedicated to working closely with students and their families to help make UConn a reality.

Nearly $245 million in merit and need-based support is available to UConn Students annually to assist with over 34,000 financial aid applications that are processed each year. Currently, 79% of all undergraduates are receiving some form of financial aid.

In FY23, 42.3% of all tuition dollars were dedicated to scholarships and grants. This chart shows the tuition-funded, need-, and merit-based financial aid, as well as “other aid” which includes need and merit aid from federal, state, private, and non-tuition revenue sources. In addition to the financial aid mentioned above, students also receive over $200 million annually in aid from sources outside the University. UConn is doing its part to ensure access and affordability by increasing financial aid support.

*University-supported aid includes undergraduate and graduate aid funded by tuition, departmental revenue, and work-study.

**Other funding comes from the private sources such as the Foundation and endowments.

Since FY20, University Supported Aid has increased by 22%. 
Need-Based Support

The cost to attend varies depending on each student’s personal financial situation, and the financial aid offer will be tailored to the individual needs of our students. Offers typically include various forms of aid, such as scholarships, grants, loans, and work-study.

There are several types of aid available for students to apply for, and most UConn students use a combination of financial aid to fund their education. In addition to these several types of aid, we offer our students employment as well as $78.4 million in tuition waivers.

The debt upon graduation for UConn students remains relatively low at $21,247 versus the national average of around $29,000 and state average of $35,853.

$164.6M
In need-based grants budgeted for undergraduate and graduate students, FY23.

Economic Mobility of Connecticut Universities

Recent study revealed UConn as one of three CT universities in national “top tier” for economic mobility among graduates from low-to-moderate income households.

COVID Relief

The University was allocated significant funding to mitigate the financial impact of COVID. This federal funding enabled us to support students in a significant way and balance the budgets in FY20 through FY23.

During COVID, the UConn community stepped up in myriad ways to give back, including through a University-wide drive to donate PPE to UConn Health staff; collaborations between UConn Health doctors and engineers, scientists, and researchers at Storrs to create face masks and shields with 3D printing technology; the production and donation to local charities of hundreds of bottles of hand sanitizer by UConn employees and graduate students; and the training and deployment of students, faculty and staff from across the University to assist with immunizations and contact tracing.
Extensive Cost Savings and Strategic Growth Initiatives

Financial Improvement Plans (FIPs) have saved $99.0M (UConn) and $116.2M (UCH) over the last 5 years to help mitigate structural deficits caused by increases in mandated CBI and fringe legacy costs.

Cost-cutting efforts have included:
- attrition/vacancy elimination
- contract improvements
- operating efficiencies

Revenue initiatives have included:
- Tuition & fee increases
- Increase clinical volume through strategic faculty-clinician hiring
- Identified new patient revenue streams (enhanced payments for physician services)

Operating Budget Risks

**State Support:**
- FY23 funding is largely one-time; status of FY24 permanent funds is unknown.

**State Fringe Benefits:**
- The State’s legacy costs continue to rise; high fringe benefit costs impact budgets, research competitiveness, students and their families.

**UConn Health Patient Revenue:**
- Payer mix and volume uncontrollable
- Medicare proposed payment reduction and overall shift of services to outpatient
- Consolidation of other systems reducing outside referrals
- DSS Supplement/Enhanced payments
- Federal match

**COVID:**
- Return of international students.
- UCH patient reaction towards clinical care.

**UConn Tuition Rates:**
- The in-state population has become more rate sensitive in recent years. Rate changes may have a greater impact on overall quality as well as diversity than those in years prior. This is in addition to the trend that has already happened in the out-of-state market.
Next Generation Connecticut Overview

UConn’s campuses continue to be transformed by the modernization, rehabilitation, and expansion of the University’s physical plant through the NextGen CT initiative.

Approved in 2013, NextGenCT is an ambitious plan (FY15-FY27) to improve UConn’s STEM capabilities. Specifically, the initiative is designed to:

- Build STEM facilities including classrooms, equipment, and laboratories
- Upgrade aging infrastructure to accommodate faculty and students
- Hire new faculty & enroll more undergraduates primarily in STEM areas (dependent on new state operating funds)
- Increase research and innovation

Undergrad STEM enrollment increased by 40% since FY13. Engineering enrollment increased 66% to 3,523.
Next Generation Connecticut: Tech Talent Pipeline

UConn is the primary engine that feeds the tech talent pipeline in the State to support innovation and economic growth.

The Connecticut Department of Labor expects a 17% overall increase in engineering employment between 2016 and 2026.

- UConn produces over 53% of all the engineering graduates in Connecticut
- A recent survey shows nearly 99% of UConn Engineering graduates are either employed or continuing their education within 6 months of their graduation

UCONN 2000 Capital Program

The UCONN 2000 capital program was enacted to attract and retain CT’s high-achieving students through a dramatic transformation and modernization of the physical plant of the University.

Despite negative COVID impacts, UConn continues to complete projects within the capital programs. State bond funding currently in statute will support the academic and research priorities as well as other priority projects for Storrs and UConn Health.

Construction continues on the Northwest Science Quad projects, which support the state’s economic recovery from the COVID crisis (as the construction value of these projects supports the creation and/or preservation of thousands of jobs) and the university’s goal of doubling research output.

While future year state bond funding is not guaranteed, UConn continues to work with the state to communicate project funding requirements.
UCONN 2000
Incredible Return on Investment

UConn ROI:
- Undergrad enrollment increased by 9,409 students (64%) since 1995
- Undergrad STEM enrollment increased by 38% since 2012
- Applications have reached over 43,000
- Over 53% of all engineering graduates in Connecticut are from UConn

UConn Health ROI:
- Served as the catalyst to the expansion of the bioscience industry in the region and state
- Medicine and Dental Medicine enrollment increased by 30%
- Increased access to patient care with 7-9% increase in volumes and unprecedented clinical revenue growth of 60% since 2013

- Research awards have grown to $317M over past five years
- Small start-up business incubator space doubled & consistently at capacity

Nearly $4.7B in capital expenditures since FY96 from all fund sources

</tbody>
</table>

Only $163.7M remains in the NextGenCT initiative over the next 4 years (FY24-FY27).

**COVID impact**: workforce - limitations, interruptions or unavailability; materials - increasing production timelines, shortages and prices.

**Economy**: significant escalation of ~15-20% annually year/year which will likely moderate but not down to the 4% budgeted in the near future.

**Project priorities**: Increased costs result in reduced project scopes; future funding insufficient for priority projects.
UConn Health
Facilities Summary and Maintenance Needs

26 BUILDINGS

3.7 MILLION SQUARE FEET

210 ACRES ON 3 SITES

PARKING SPACES:
Garages: 2,300
Surface Lots: 2,940

Deferred Maintenance Needs

Recurring Deferred Renewal
$119M
Items that have not been replaced during the normal course of maintenance that have reached or exceeded their expected life (e.g., original 1970 era HVAC systems)

Recurring Projected Renewal
$159M
Items that during the 2018-2028 time period will “age out” and need to be replaced (e.g., roofs that are 25 years old now but will reach their 30-year life expectancy in the next 5 years and need to be replaced)

Nonrecurring
$17M
Items that require replacement on a one-time basis (e.g., stair railings that are not code compliant and need to be replaced, but are not expected to be replaced again)
UConn Health Deferred Maintenance

$65M of new capital funds authorized in FY22 and FY23 for the first time since 2018

$230M of additional capital funds are needed to address the Deferred Maintenance needs identified in the Facilities Condition Assessment
